Meeting Information

Place: Ceer or Falvey common spaces

Time: Fridays any time after 5 pm (will schedule as time comes), any other time will be discussed with group

Problem Space

The group is trying to find a way to characterize cells moving through capillaries through fiber optics. This allows us to observe properties of cells and recognize health concerns that may occur.

Team Guidelines

List all the guidelines you want your team members to adhere to throughout the project. You may want to include the following in this list (not an exhaustive list):

1. Group members must come to all meetings and alert others if unable to
2. communication - teams for academic, and iMessage for personal

3. consequences for not attending or communicating - one warning, and talk with Dr. Klein
4. expectations for outside of meeting work - complete needed assignments at least one day before due date
5. system for conflict management - meeting with Dr.K or your advisor
6. system of note taking for meetings - shared excel documents with topic summaries and time logs
7. Communicate / respond within 24 hours
8. Designated submitter - Demetrius
9. Integrity with Villanova guidelines, and don't boost time logs
10. Shared documents are expected to be edited on word. If using the desktop app, ensure you are connected to the internet.
11. If emailing Dr. Wynne, cc all group members in email unless its regarding personal issues.
12. Documents should be added to the "Cell Imaging" folder in the Cell Imaging group MS Teams OneDrive files.
13. Dr. Wynne Comments – meetings times: alternate Tuesdays 1-pm-2pm /frequency: 1 meeting/every 2 weeks)
    a. Prefers to communicate through outlook email
